

## 041 Slabmat™ Safety Ramps

Rubber ramps for use with the Slabmat™ product.  
Provides a beveled edge to minimize trip hazards

The Slabmat™ Safety Ramp is designed for use with the Slabmat™ floor mat and provides a 2" beveled edge for easy access onto or off of the work platform. Made from a 100% nitrile base rubber compound Slabmat™ Safety Ramp provide the highest resistance to chemicals, cutting fluids, animal fats, oils and greases. All ramp lengths fit the male/female interlocking system on the mats and are beveled and molded with mitered corners and a protruding tab that locks together the two adjoining ramps for a secure, professional corner. Square edges can be achieved by trimming off the miter using the cut line on the bottom of the ramp.

- Beveled edge ensures smooth, safe transitions
- Nitrile provides highest level of resistance to chemicals, oils and greases
- Ribbed surface enhances traction in wet/dry areas
- Molded mitered corners with locking tabs for secure joins
- Cutting lines for inside and outside corners and customization
- Yellow borders along the mat edges help comply with OSHA standard 1910.144
- Compatible with any of the Slabmat™ family of mats

Stock Sizes	2"x36"
Thickness	1/2"
Colors	  Black      Yellow
Product Group	Ergonomic, Anti-fatigue & Safety Matting
Environment	Dry Areas
Usage Intensity	Heavy duty
Sales Tip	All ramp lengths are beveled and molded with mitered corners and a protruding tab. The tab locks together the two adjoining ramps for a secure, professional corner.
Material	Nitrile rubber
Product Weight sqft in lbs	1.3
Process	Compression Molding
Reach	Reach compliant (Registration, Evaluation, Authorization and Restriction of Chemicals).
Prop 65 Warning	Prop 65 Complaint
