## TEST REPORT

### **Type examination of the slip resistance in accordance with DIN 51130 and BGR 181**

**Reference:** Anti-Slip Test performed for Notrax® Floor Matting,  
Your commission 84786 of 13<sup>th</sup> August 2010

**Test Sample:** Ergonomic Matting # 782,  
SKY TRAX™ 91 cm Black,  
Sample-No F 655

**Date of Test:** 07<sup>th</sup> September 2010

**Test Equipment:** According to your instructions, the slip resistance of the floor covering was tested with the walking method - ramp test - in accordance with DIN 51130 [Testing of floor coverings; determination of the anti-slip properties; workrooms and fields of activities with slip danger]. The critical angle of inclination was found out with the ramp test (see enclosure) with two test persons. The test persons were calibrated at the same day.

**Result of the testing and assessment:** The mean acceptance angle of both test persons was greater than 7.2°.

According to DIN 51130 and the BG-rule BGR 181, the sample is in assessment group **R 9**.

**Validity Period of Test Report:** This Test Report is effective, with consideration of all sorts of modifications in regulations and technical innovations, for a period of five years.

**Remark:** This Test Report applies to the floor covering with the inspected surface as described above.
